**Vault Professional 2013 PLM 360 Extension**

Release Date: 2012-05-01

The Autodesk Vault Professional 2013 PLM 360 Extension - PLM 360 Sync - enables customers with Vault Professional 2013 on subscription with a one way synchronization of their Vault item master, complete with metadata and BOM structure, to designated Autodesk PLM 360 Workspaces in order to leverage the information as part of business processes.
